Dedication

With sincere and deep appreciation to Carole Kaczorowski, without whose vision, intelligence, persistence and compassion, this organization would not exist. Carole founded The New Jersey Parents' Caucus in 1990. Over the next ten years, families and advocates collaborated to reform fragmented and ineffective efforts into a seamless service delivery system for children with emotional and behavioral challenges. On January 24th, 2000, Governor Whitman announced the new Children's System of Care Initiative. This initiative is designed to partner with parents at all levels, so families can obtain the help they need to assist their children in becoming active and productive members of society.

Mission Statement

The New Jersey Parents' Caucus, Inc. is a coalition of parents, family members and youth whose mission is to ensure that every family who has children with special emotional and behavioral needs is given an opportunity to play a strong and active role in the conceptualization, development & delivery of effective & timely services for their children in the mental health, juvenile justice & child welfare systems.

Our Vision

The New Jersey Parents' Caucus celebrates the potential for ALL children to become loving, responsible, contributing adults.
