

# Help us learn more about how to improve life outcomes of young offenders with brain injury

Juvenile services staff across all roles in short-term detention and residential or secure care facilities are invited to complete the survey. Including those with and without experience working with young offenders with brain injury.

The survey takes approximately 30 minutes to complete and if your state allows, you can enter your name into a random drawing for one of 50, \$100 gift cards.

Please forward this opportunity to others who work in your facility or network.
